

Commitment

VERLAN has as main strategic policy to maintain the economic viability of the company as well as the purpose of fully satisfying the needs of its customers in terms of quality and service at the most competitive prices, through the contribution of a high technical know-how, be appropriate to the context of the organization and of an optimized management of the resources, the environment and the safety and health of all the people involved in our work.

To maintain this commitment in the present and in the future, the concept of **continuous improvement, legal compliance and other applicable requirements, and prevention of pollution**, is present in all VERLAN processes through:

- The cordial relationship and cooperation with our customers and suppliers in terms of quality and environmental management.
- The continuous improvement of our processes and services, based on the analysis of the objectives.
- The necessary continuous formation for all the staff.
- A good work environment and team motivation.
- The legal compliance in matters of environmental management and occupational safety and health, taking into account the life cycle of the product , from the purchase of raw material to the management of delivery.

All of us are part of a common team that pursues the same objective, be the favourite supplier for each of our customers.
